Dear Sir,

Sub: - Information under RTI Act, 2005.

This has with reference to the Director & CPIO, Ministry of Steel letter No.23(20)/2011 dated 23.2.2011 enclosing therewith a copy of your RTI application dated 10.2.2.011 seeking information under Section 6 of the RTI Act, 2005. In this regard we would like to inform you that KIOCL is having 2 (Two) nos. of operating units i.e. Pellet Plant and Blast Furnace Unit at Mangalore and 1 abandoned mine site with processing unit at Kudremukh in Chickmagalur Dist. Kannada.

In this regard a statement indicating the details of discharge of chemical is enclosed herewith. Further, we would like to inform you that Blast Furnace Unit is a Zero discharge unit and it does not discharge any chemicals and does not pollute the atmosphere. Moreover, as stated above, Kudremukh Iron Ore mine is not operating, there is no discharge of pollution.

Thanking you,

Yours faithfully,
for KIOCL Limited

(S. K. Padhi)
Company Secretary & PIO

KIOCL LIMITED
Pellet Plant Unit, M'lore

Sl.No	Stack Emission	Amounts produced	Method of removal/disposal presently adopted	Amount still present in final treated product before being released to atmosphere or water or land.	Maximum limit prescribed by the Pollution control authority for the release of this stack emission
1	Suspended Particulate Matter	The average of the SPM emissions from the stacks in the year 2009-10 was 74.79 mg/Nm ³ .	Wet scubber Bag Filters Multiclones	The gaseous emissions from the Pellet plant are being discharged through ten chimneys. All the chimneys have control equipments such as wet scrubbers, bag filters and multiclones. The SPM levels are below the prescribed norms. i.e 150 mg/Nm ³ . The scrubbed effluent is recycled to recover the iron particles in the filter plant.	150 mg/Nm ³ .
